

2010 Dean's List

Academic excellence is valued by all educational institutions. The Faculty of Built Environment established the Dean's List to recognise and celebrate the academic achievements of our undergraduate students. We encourage all students to achieve excellence in their studies.

This Dean's List includes all 2010 undergraduate full time students who achieved a Weighted Average Mark (WAM) of 80 and above in a particular session. To distinguish the Dean's List from honours at graduation, students in final semester of their studies are excluded from the Dean's List.
